- Leetcode: pantheism2709
- GeeksforGeeks: sam2709

## SKILLS

- **Languages:** C, C++, HTML, CSS, JavaScript, Java
- **Frameworks:** React.js, Express.js, Spring Boot
- **Others:** REST API, JSON, Operating System, Database Management System

## AREA OF INTEREST

- Data Structures, Problem Solving, Web Development, Object Oriented Programming

## PROJECTS

- **Miracle-Box (Html, Css, Javascript, React, MongoDB, Node.js, Express.js):**
  - Developed a user-friendly web data collection tool for the **NGO Tiny Miracles Foundation** to collect demographic and sociographic data from awareness session attendees.
  - Integrated visually appealing **charts** and **dashboards** for effective progress monitoring of the collected data.
- **Get Cure (Html, Css, Javascript, React, MongoDB, Node.js, Express.js, Stripe):**
  - An online platform to buy medicines from home with ease.
  - The application supports secure payments through Stripe.
  - Includes user authentication and authorization using JWT (JSON Web Token) to protect sensitive routes and actions.
  - Only authorized users (admin) can add or manage products.
- **NCP Chatbot (Html, Css, Javascript, MongoDB, Gingerit, Flask, NLTK):**
  - Designed to assist with networking-related questions within a college environment.
  - Serves as a virtual assistant, explicitly focusing on resolving issues related to internet connectivity, Wi-Fi functionality, and LAN functions.

## EXPERIENCE

- **BlueYonder**
  - *6 Month Internship + 10 Month Full-time*
  - **Developed microservices:** Using Spring Boot, demonstrating strong Java and RESTful API skills.
  - **Testing:** Conducted comprehensive functional and unit testing using JUnit and JMeter to ensure high software quality.
  - **Automation:** Performed automated UI testing using WebdriverIO (TypeScript-based framework) to validate that all components render correctly and display accurate data.

## ACHIEVEMENTS

- Solved 800+ coding questions across platforms such as GeeksforGeeks and Leetcode.
- Selected as one of the top 144 candidates across India to participate in Morgan Stanley's Code to Give Hackathon 2023.
- Ranked 71 in Codestart 5.0, a coding competition at MNNIT Allahabad.
- Ranked 148 in Codathon, an inter-NIT coding competition organized by NIT Bhopal.
- Secured AIR 211 in NIMCET Examination 2021.
- Secured AIR 34 in BHU MCA Examination 2021.
